

Registration number – UK-2017-1097-001

Appearance – colourless to light yellow gel

Describe the activity or work process.
(Inc. how long/ how often this is carried out and quantity substance used)

Maxforce Quantum is a ready to use insecticidal gel bait containing 0.03% Imidacloprid used for the rapid control of a variety of ants. Apply small drops of bait of about 1 cm diameter (~ 200 mg) each. 1 spot of ~ 200 mg per m² treated area or 1 spot of ~ 200 mg per linear meter of ant trail. Place these drops alongside ant trails. For nest treatment, inject 2 g of product directly into nest entrance using bait gun applicator.

Location of process being carried out?

In and around buildings such as domestic properties, public buildings and food handling establishments.

Identify the persons at risk:

Employees Sub-contractors Public

Name the substance involved including active ingredient, in the process and its manufacturer.

Maxforce Quantum (Envu)
Active Ingredients – 0.03% Imidacloprid

Classification *(state the category of danger)*

	<input type="checkbox"/>	Very Toxic – if swallowed		<input type="checkbox"/>	Irritant - may cause allergic skin reaction		<input type="checkbox"/>	Extremely Flammable

State the Risks to Health from Identified Hazards

EC Classification:

H410 Very toxic to aquatic life with long lasting effects.
EUH401 To avoid risks to human health and the environment, comply with the instructions for use.

Control Measures:

Always consider non-toxic and least toxic options before application
Always read label / MSDS before use and comply with details.
Remove non target organisms / People during application
Prevent access to baits and do not use where contamination of feeds / foodstuffs may occur
To be used by trained operative (professional) only.
Do not permit entry to drains. When used externally ensure bait is protected from rain.
Keep in original, labelled container.

Remain in control of substance at all times. Storage to be restricted to certified store, out of storage use to be confined to regulated vehicle.

Where risk of interception by 3rd party warning labels to be used to denote use and risk

Records to be kept on usage and location in pest control master file.

Operator to wear suitable PPE when handling and applying As detailed below. Records of PPE maintenance to be held centrally.

Waste product to be retained and disposed of by Pest Control operator as per EA guidelines.

Safety Phrases:

S1 Keep locked up. S2 Keep out of the reach of children

S7 Keep container tightly closed

S13 Keep away from food, drink and animal feeding stuffs

P273 Avoid release to the environment.

P391 Collect spillage.

P501 Dispose of contents/container to a licensed hazardous-waste disposal contractor or collection site except for empty clean containers which can be disposed of as non-hazardous waste

Is health surveillance or monitoring required?

Yes

No

Personal Protective Equipment (state type and standard)

 <input type="checkbox"/>		 <input type="checkbox"/>	
Dust mask		Visor	
 <input type="checkbox"/>		 <input checked="" type="checkbox"/>	Goggles to EN166 where risk of splash occurs
